

A new speech and language therapist

Speech and language therapists help children with communication.

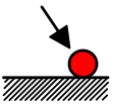

Communication means the way we talk, play, and make friends.

It is also about reading and writing.

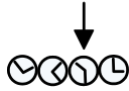

Speech therapists enjoy working with children.

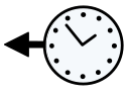

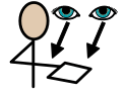

There are a lot of speech therapists in London

who go to schools and help children with their communication.

   a   .

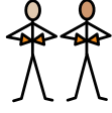

My  name is _____.

      

         

        

   

 This  means  we  may  see  a different  speech therapist  in

 our  school.  This  is okay.

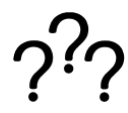

The  new  speech therapist  may  be a boy  or a girl.

 We  usually  will  find out  when  we  see  them.

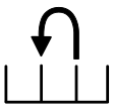

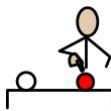

The  new  speech therapist  usually  will  want to get to

 know  their  students.  This  means  that  he or she  may  ask

 us  some  questions,  and  we  may  get to  ask  them

 some  questions  too.

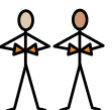

The  new  speech therapist  may  do  similar  things  with  us  as

 our  last  speech therapist.  This means  we  may  play

 games,  read  stories  and  talk about  pictures  with  our

 new  speech therapist  too.

 We  may  do  something  new  as well.

 We  can  find out  more  when  we  see  our  new

 speech therapist.
